

College readiness and preparatory skills for grades 6-9

ESS Academy- Extra School Skills

<https://jalajjha.wixsite.com/extraschoolskills>

This course is aimed at teaching skills needed for college admissions as well as those needed to navigate and be successful in college

It's unfortunate that we don't teach key skills needed for college during formative years but test them heavily for college admissions. Our students often find themselves unprepared when it comes to standardized testing like SAT/ACT/GRE/GMAT with grammar and critical thinking. To make it worse, students find themselves ill-prepared to manage rent, credit, and budget during college

We designed this course to fill these gaps in the formative years of grade 6-9. In this summer camp class we will cover basics of the following:

Skills needed to get into college

1. English usage Grammar – SAT/ACT
2. Mathematical, analytical and Critical reasoning – SAT/ACT

Skills needed during college

3. Financial education – Financial planning, scholarships, credit building
4. Resume building and interview skills, Organization structure, career planning

For registration details visit: <https://jalajjha.wixsite.com/extraschoolskills>
