2017 Summer Camp - Kids Computer science k-12

Introduction

Kids Programming helps children develop problem-solving, critical thinking, logical thinking, independence, self-confidence, and communication skills. These skills will benefit them in all areas of real life.

This summer camp program would be getting a “hands-on” understanding of how computer science programming actually works, the subjects are very passionate in teaching the kids, which is recommend to the parents who are looking for their kids to succeed by learning something really useful, helps young people learn to think creatively, reason systematically, work collaboratively — essential skills for life in the 21st century.

Program

We have computer lesson plans for kids in Kindergarten to Grade 12 using our well planned curriculum and resources.

Our summer camp program are specifically designed to open students' minds to the world of technology through programming with Python, Javascript, building website html5/css3, video editing and game design among others. It's about instilling a passion for learning and creative thinking, developing new minds. Curriculum include programming theorem, project engaging computer activities divided by grade level with hands-on learning and instruction in a fun supportive environment.

Our program follow the software development life cycle which is followed by major IT technology industry, let young learner understand the concepts of programming from their early years.

We provide computer. No need to bring your own, just show in class and we provide everything your child need. We also provide programmable Robot Kit for kid to get hands-on experience about robotics and graphical programming, which is an all-in-one solution for robotics learning and designed for STEM education.

Tuition

8 week classes, 90 minutes / class, \$ 28 / class, book&handout \$15

total $28 \times 8 + 15 = 239$

There's an additional 10% off tuition each extra sibling that registers.

Summer Camp 主持人, 程彤 **Tori Cheng**, 中国武汉大学计算机科学系软件专业学士, 美国加州 **Loyola Marymount University, Los Angeles** 电脑学硕士, **Dallas** 侨界知名科技名人, **founder Creative Design of Websites, LLC**, 为中美公司开发发布数百余网站, 如侨界知名网站今日美国, 达拉斯时报, 休斯顿美南新闻黄页等。深资软件开发及培训经验, 曾成功创办武汉珞珈电脑培训学校, 培养无以计数学员, 享誉武汉三镇。
